# BUT WHAT IF JESUS WASN'T WHO YOU THOUGHT?

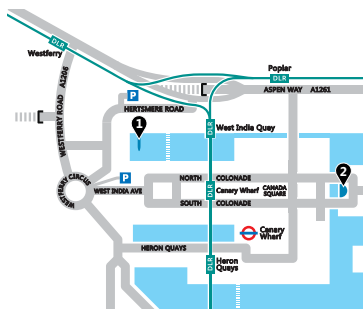

Join us for the latest in this 'One Thing in Common' series for an interview and talk with Dr Zigmund Rogoff as we hear how this unlikely convert became convinced Jesus wasn't who he had thought.

Having previously described himself as an atheist and secular Jewish man, what he discovered about Jesus changed his life. Dr Rogoff holds a PhD in Mathematics and is a former quantitative researcher for Glencore and Deutsche Bank. He now works full time with Jews for Jesus, helping Jewish communities understand who Jesus is.
