Which subjects did you enjoy the most and why?

I enjoyed Homiletics and Understanding Worldviews more. Homiletics made me know how to do preaching very well now. Worldviews also helped me on how I can relate with other faith who are not Christians. I now know how to approve them with the Gospel of Jesus Christ.

Which subjects were difficult and why?

I thank God that this time I did not get any subject difficult for me. I understood them all.

For the scan copy of the results, I think I sent it on 30th of September 2024. That report was general including the year 3 semester one result.

What has God been teaching you during this semester?

I have learned how to prepare and preach God's Word very well.

I also learned how other people in the world understand God.

God thought me to be humble for the authorities above me. This was through the lesson of Anglicanism.

I also learned about my Church history dipper. How the Anglican started and the current stand of the Anglican Churh.
